

PLAN SUMMARY

HOBART FOOD EQUIPMENT GROUP CANADA LTD.

OWEN SOUND, ONTARIO

Name & CAS # of Substance	Manganese	7439-96-5
	Chromium	7440-47-3
	Nickel	7440-02-0
Facility Identification and Site Address		
Company Name	Hobart Food Equipment Group Canada Ltd.	
Facility Name	Hobart Food Equipment Group Canada Ltd.	
Facility Address	Physical Address:	Mailing Address: (if different)
	2875 Bayshore Road East Owen Sound, ON N4k 5P5	
Spatial Coordination of Facility	Latitude: 44.5940 Longitude: -80.9237 Datum: 1983	
Number of Employees	147	
NPRI ID	10286	
Ontario MOE ID Number		
Parent Company (PC) Information		
PC Name & Address	NA	
Percent Ownership for each PC		
Business Number for PC		
Primary North American Industrial Classification System Code (NAICS)		
2 Digit NAICS Code	33 Manufacturing	
4 Digit NAICS Code	3333 – Commercial and Service Industry Machinery Manufacturing	
6 Digit NAICS Code	333310 – Commercial and Service Industry Machinery Manufacturing	
Company Contact Information		
Facility Public Contact	Mr. Len Bird	
	Len.bird@ITWEFG.com	
	Phone: (519) 376-8886 x226	Same address as facility
	Fax: (519) 376-8887	

PLAN SUMMARY STATEMENT

This plan summary reflects the content of the toxic substance reduction plan for Hobart Food Equipment Group Canada Ltd. (Hobart) for Manganese, Chromium, and Nickel, prepared by Conestoga-Rovers & Associates.

STATEMENT OF INTENT

Hobart is committed to playing a leadership role in protecting the environment. Whenever feasible, Hobart will eliminate and reduce the use of toxic substances in full compliance with all Federal and Provincial Regulations.

REDUCTION OBJECTIVES

Hobart prides itself on technological innovation in order to produce high quality products in an environmentally responsible manner. Through this plan, Hobart determine the technical and economic feasibility of each option to determine which, if any, are viable for implementation at this time.

REDUCTION OPTIONS TO BE IMPLEMENTED

Hobart has not identified any feasible options which could be implemented due to the nature of the product. Stainless steel is used for food safety and the material selection is based on customer demand. Hobart has only found a single supplier of stainless steel containing no nickel, and it is not feasible to use that supplier. Hobart uses a "dynamic nesting" inventory control model, so it is not possible to bring parts in that are closer to their finished size.

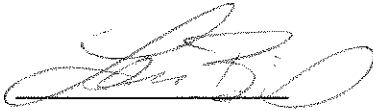

CERTIFICATION BY HIGHEST RANKING EMPLOYEE

As of September 25, 2013, I, Len Bird, certify that I have read the toxic substance reduction plan for the toxic substance referred to below and I am familiar with its contents, and to my knowledge the plan is factually accurate and complies with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 made under the Act.

Manganese

Chromium

Nickel
